Eastman Kodak Film Titler

REF : DPS-4160, 15 September 1958

1. The Photographic Intelligence Center concurs in the need for additional film titling equipment at Eastman Kodak.

2. The ideas proposed by Eastman Kodak for a more efficient titler also appeal to PIC. It is desired that specifications for this titler, when available, be forwarded to PIC so that they can be viewed for the possibility of procuring such a titler for emergency and backstop use at PIC.

ARTHUR C. LUNDAHL
Director
Photographic Intelligence Center
